# What is the worldwide COVID-19 case percentage ?

The image features a white, rounded rectangular box with a thick black border. Inside the box, the words "We Can Do It" are written in a large, bold, black serif font. The box is positioned diagonally across the frame. The background is a light blue color with two thick, black, curved bands that intersect behind the box. One band curves from the top left towards the bottom right, and the other curves from the bottom left towards the top right. The overall design is reminiscent of the iconic "We Can Do It" poster by J. Howard Miller.

## *IST 719*

# *Motivation*

To emphasize the huge loss which COVID-19 brought to our human society to people around the world. Summarize and face this history, we can better prevent spread of any future virus

# Data Description

The dataset was from Kaggle, and it has 11 column and 226 rows. The dataset describes the total cases of COVID 19 around the world. I manually added a column which calculate the case percentage for each country.
